

Dauren Yesselbayev

Golang Junior Developer

Kazakhstan, Astana | +7 (705) 904 49 00 | yesselbayev.d@gmail.com

<https://github.com/dyesselb> | <https://www.linkedin.com/in/dyesselbayev>

Profile

Enthusiastic Golang developer with skills in development to implement theoretical knowledge in enterprise level implementation. I had many hurdles and had to adapt quickly but I enjoy learning new skills and thrive when being challenged. My experience at Alem School helped me develop the basic skills of Golang language and some advanced topics as well.

I want to continue making contributions and improving as a developer.

Education
